

PoE+ PSE Module

ADP-PSE

Features

- IEEE802.3at/af compliant
- PoE+ Power Sourcing Equipment (PSE) with an isolated power supply using synchronous Flyback topology
- Supports DC input 9~30V
- Supports 1Gb/s Ethernet

Product Description

Interface	RJ45 for connecting to PD
	Internal 12-pin head for connecting with powered board
	Internal 2-pin terminal block for DC power of powered board
Cable	OALPOE-01.;OALPOE-02 and OALPOE-03 for different LAN devices (please refer manual for the details)
Dimension	70mm x 49mm

Operating Conditions

Power Requirement	DC 9~30V
Temperature	-40~+125°C

Ordering Information

Ordering code	ADP-PSE : IEEE802.3at/af compliant with DC input 9~30V	Art. No. 152% \$
